DAVIES GROUP UAE

Company Profile.

Interior Fit-Out & Shopfitting Specialists · Est. 1997

Davies Design Office, 2nd Floor, R.A.K. Bank Building, Office 213
Al Garhoud, Dubai, U.A.E.

Introduction

Founded in 1997, Davies Group UAE is a well-reputed British run Dubai based company, specialising in interior design and turn-key interior solutions. We have expertise in specialist construction in Interior Fit-Out, Design and Build and Total Project Management.

Our strong team of professionals has led various projects in and around the Gulf States. We aim to create sustainable environments to satisfy client needs — ensuring client satisfaction, employee fulfilment and financial performance.

We are a team-orientated company who work closely with our clients to achieve the required end result, from the first design sketch through to final handover and beyond.

Every project is backed by our own in-house workshop, design office and site teams, giving us direct control over quality, cost and delivery timelines that subcontracted competitors simply cannot match.

Beyond shopfitting, our in-house Davies Group Workshop handles bespoke joinery and millwork for every project — giving us direct control over quality, lead times and cost that subcontracted competitors cannot match.

Our portfolio spans retail, F&B, commercial offices, gyms, spas and residential interiors — with mall-approved installer status across more than 15 retail and hospitality sectors in the UAE.

BACKGROUND

The Founders

Davies Group UAE was founded in 1997 by brothers Kevin and Clive Butcher. Known throughout Dubai's malls, hotels and shopfitting community simply as 'The Twins', Kevin and Clive have spent nearly three decades building relationships, delivering projects, and earning a reputation that precedes them across every major retail and hospitality development in the emirate.

ESTABLISHED

WHY EXPERIENCE MATTERS

In a market where projects are complex, timelines are tight and brand standards are uncompromising, experience is the differentiator. Kevin and Clive have personally overseen fit-outs across every major mall in Dubai — from The Dubai Mall and Mall of the Emirates to Mirdiff City Centre and Dubai Hills Mall — and have held long-standing partnerships with some of the region's most recognised retail and F&B operators.

That depth of relationship means Davies Group UAE understands how landlords, brand principals and clients think. It is this combination of technical skill and relationship capital that has kept clients returning to Davies Group UAE project after project for nearly three decades.

BACKGROUND

Mission Statement

"To ensure our clients receive a quality service by combining and utilising the best products and best personnel available — with trust and honesty. As a British-run fit-out contractor delivering retail, F&B and residential projects across the UAE since 1997, we bring that same standard to every mall unit, restaurant and villa we build."

OUR PEOPLE

Meet the Team.

Every project we deliver is built by the same core team, from first concept sketch through to final handover — designers, project managers and site craftsmen who have worked together for years.

ON SITE

Our site & workshop team.

15 experienced tradespeople make up our site and workshop teams — 11 carrying out civil works directly on site, plus 4 in our joinery workshop — many with the company for over a decade.

LOGISTICS & OVERSIGHT

On the road, on site.

We run 3 dedicated drivers and a number of company vehicles to keep every project supplied and moving — materials, tools and people, wherever the work is. Our office-based design and project management team also visit site regularly throughout every build, checking designs against implementation on the ground to make sure what gets built matches what was drawn.

Project Showcase

The seventeen projects on the following pages are shown in full galleries — our top brand fit-outs alongside two residential projects, sourced directly from the current Davies Group UAE project archive.

01 Ladurée

French Patisserie & Café · Fashion Avenue, The Dubai Mall · Client: French Spirit

Ladurée's Fashion Avenue kiosk sits in The Dubai Mall's ultra-premium wing, directly alongside Dolce & Gabbana and Balenciaga — a location that demands a finish equal to the flagship houses around it.

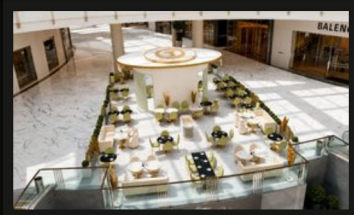

The kiosk is wrapped in a striped pastel façade with backlit signage and a sculptural wreath medallion feature visible from the mall's upper level.

The wreath medallion and rattan screening give the kiosk a sense of craft that holds its own against the flagship houses either side.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team.

02

Tommy Bahama

Island Lifestyle Retail · Mirdiff City Centre · Client: Al Boom Marine

Tommy Bahama's Mirdiff City Centre store brings the brand's resort-lifestyle identity to one of Dubai's family shopping destinations, delivered by Davies Group UAE as one of three Tommy Bahama locations across the UAE.

A dark timber storefront portal with illuminated gold script signage opens onto a palm-frond-muralled interior, with framed coastal photography niches and a carved marlin logo feature wall anchoring the sales counter.

Track lighting and framed coastal photography carry the resort feel from the storefront through to the fitting rooms.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

03

Awani

Contemporary Malaysian Dining · Dubai Hills Mall · Client: Kitopi

Awani brought contemporary Malaysian dining to Dubai Hills Mall, needing an interior that felt warm and craft-led rather than a standard mall restaurant fit-out, delivered from shell through to opening day.

A geometric screen façade and dual entrance announce the space, while inside a sculpted stone accent wall, pottery display niches and wavy banquette seating give the dining room a handcrafted character.

Every material choice, from the stone accent wall to the pottery display niches, was selected to reflect Awani's craft-led approach to Malaysian dining.

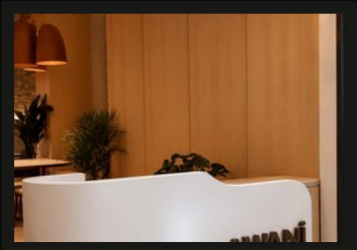

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

04

BarTartine

French Bakery & Café · Dubai Hills Mall · Client: Nine Miles Catering

BarTartine's Dubai Hills Mall opening called for a French bakery-café atmosphere — warm, considered and built around the display of fresh bakes rather than a conventional counter-service layout.

The bakery display counter anchors the entrance, with open shelving, banquette seating and a feature wall carrying the material palette through the dining hall to a terrace-view seating zone.

Open shelving and a dedicated terrace-view zone give guests a choice between quick counter service and a longer, lounge-style visit.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

05

Rip Curl

Surf & Boardsport Retail · Mall of the Emirates · Client: Al Boom Marine

Rip Curl is one of the world's most recognised surf and boardsport brands. For its Mall of the Emirates store, Davies Group UAE was tasked with bringing raw, beach-shack heritage into a premium mall environment.

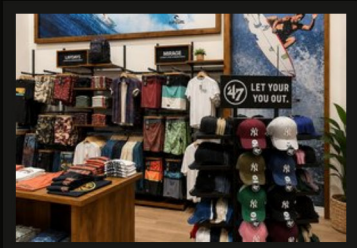

The defining material is dark stained timber, used wall to wall and floor to ceiling — anchored by a carved circular Rip Curl Wetsuits wood medallion at the entrance and a continuous exposed timber beam ceiling.

The result channels the brand's Australian surf heritage while meeting the technical standards of a premium mall fit-out.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

06

Oakley

Sports & Lifestyle Eyewear Retail · All over U.A.E · Client: Al Boom Marine

Oakley's Al Jimi Mall store is one of several Oakley locations Davies Group UAE has delivered across the UAE for long-standing client Al Boom Marine, built to the brand's full global concept standard.

An arched portal entrance and full-height storefront glazing open onto a merchandising floor zoned between lifestyle apparel and Sport Performance eyewear, with a central island display anchoring footwear.

Every fixture, from the merchandising islands to the accessories wall, was built to the same global concept standard used across Oakley's flagship stores.

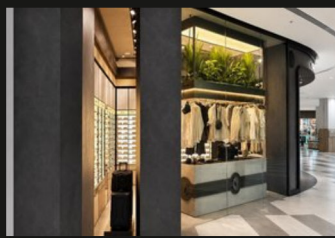

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

07

Reebok

Sports Retail · Mirdiff City Centre · Client: Al Boom Marine

Reebok is one of the world's most recognised sports and lifestyle brands. Davies Group UAE delivered a store that makes an immediate impact from the moment shoppers see it on the concourse.

The defining feature is the pair of full-height LED digital display columns flanking the entrance, an illuminated fascia, and the iconic Reebok delta rendered in large-scale neon against a dark mesh background.

The layout balances high-impact digital signage with clear, easy-to-navigate merchandising zones for footwear and apparel.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

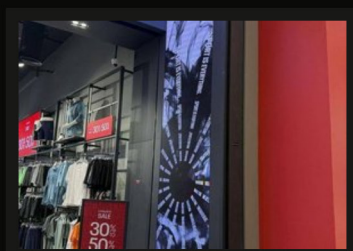

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

ROADSTER

DINER

08

Roadster Diner

American Diner F&B · Dubai Hills Mall · Client: Nine Miles Catering

Roadster Diner brought its retro American diner concept to Dubai Hills Mall, built around bold signage, booth seating and a New York skyline mural that anchors the dining room's back wall.

Every booth pod, signage element and feature wall was designed and built through our in-house workshop — one of several Roadster Diner locations Davies Group UAE has delivered for Nine Miles Catering.

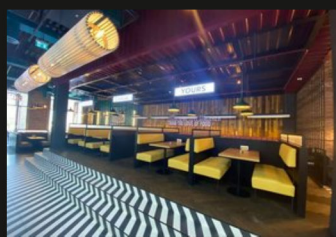

The illuminated storefront fascia carries the full Roadster Diner wordmark and diamond logo mark, visible the length of the mall corridor, with exposed brick, blue ductwork and a fully fitted bar and drinks station beyond.

From the booth upholstery to the pillar signage, every fixture was manufactured in-house to match the diner's retro American identity down to the last detail.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

09

Seafolly Australia

Swimwear & Beachwear Retail . All over U.A.E . Client: Al Boom Marine

Seafolly has been Australia's favourite swimwear brand since 1975 — defined by quality, colour and the spirit of the Australian beach lifestyle. Davies Group UAE delivered a fit-out to match that premium positioning.

The store is defined by bespoke louvred timber fascia and the centrepiece arched plaster cash desk wall, with oak-framed lit niche shelving and rattan pendant lighting throughout.

This is one of several Seafolly locations Davies Group UAE has delivered across the UAE, including Nakheel Mall and Dubai Hills Mall, each built to the same relaxed, coastal-premium retail standard.

Warm oak joinery and rattan lighting soften the retail environment, echoing the relaxed, coastal identity Seaf known for.

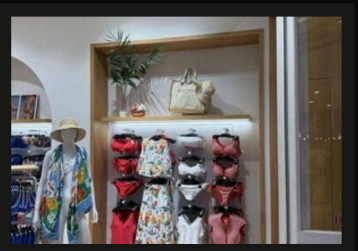

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

RIN Foundation

Bespoke Commercial Office · Dubai, UAE · Client: RIN Foundation

The RIN Foundation brief had no standard answer. The client — owners of the globally recognised Presented By brand — wanted an office that communicated their ambition and uncompromising aesthetic standards in every detail.

The defining element is the sculptural multi-layered ceiling — concentric organic forms in warm micro-plaster, each layer illuminated from within by continuous integrated LED strips, above a boardroom table designed and fabricated entirely in-house.

The organic reception counter continues this language in micro-cement and glass, allowing the Dubai skyline to become part of every meeting.

Every surface, from the boardroom table to the reception counter, was fabricated in-house to the same exacting standard the client demanded.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

Cinnabon

F&B Bakery Kiosk . Mall of the Emirates . Client: Cravia Inc.

Cinnabon is one of the most recognisable F&B brands in the world - famous for freshly baked cinnamon rolls and a warm, welcoming presence. The Mall of the Emirates kiosk is one of many Cinnabon fit-outs Davies Group UAE has delivered for Cravia Inc.

Cinnabon is one of our most repeated F&B relationships, with fit-outs across more than 20 locations in the UAE, each built to the same warm bakery-kiosk standard with backlit signage and an open display counter. The compact kiosk format is designed for fast, repeatable rollout, reflecting Cinnabon's rapid expansion across the UAE with Cravia Inc.

Design Time: 4-6 weeks . Fit-out Timeline: 6-8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team - with execution checked against the original drawings at every stage.

Zaatar w Zeit

F&B - All over U.A.E - Client: Cravia Inc.

Zaatar w Zeit is one of the region's best-known Lebanese casual dining brands, and the Al Zaria City Centre location is one of multiple Zaatar w Zeit fit-outs Davies Group UAE has delivered for Cravia Inc.

The full dining area, service counter and POS zone were delivered entirely in-house, consistent with every other Zaatar w Zeit location in the Davies Group UAE portfolio, with bilingual signage throughout.

Bilingual signage and an efficient service counter layout keep the fast-casual format working at pace during peak mall hours.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

Palm Villa

Residential Villa Refurbishment . Palm Jumeirah . Client: Private Client

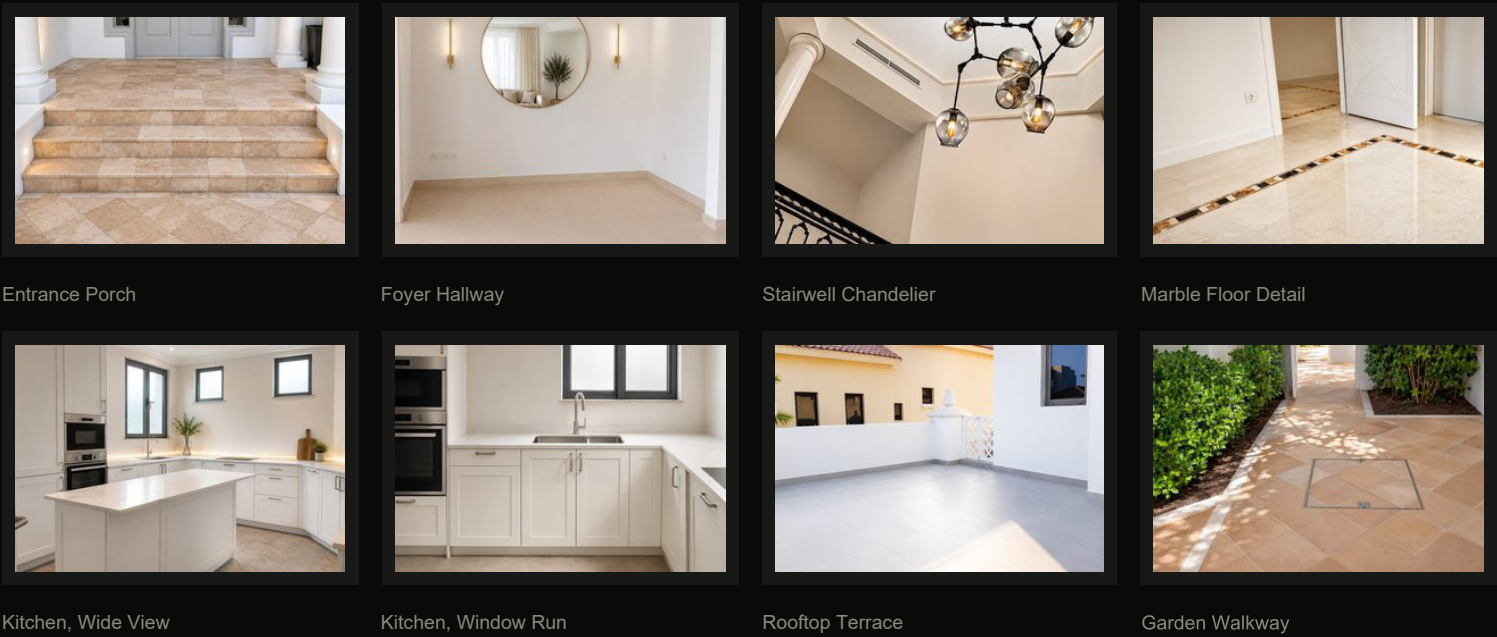

This Palm Jumeirah villa refurbishment covered the full property - entrance foyer, marble staircase, kitchens, rooftop terrace and garden landscaping - delivered end to end by Davies Group UAE.

A grand marble entrance foyer with an arched double door and statement chandelier sets the tone, carried through to a waterfall-edge kitchen island and a landscaped poolside terrace with mosaic detailing.

Design Time: 4-6 weeks . Fit-out Timeline: 6-8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team - with execution checked against the original drawings at every stage.

JVT Villa

Private Villa Renovation · Jumeirah Village Triangle (JVT) · Client: Private Residential

This JVT villa renovation showcases the full range of Davies Group UAE's residential capability - kitchens, bespoke joinery, tiling and decorating delivered by the same in-house teams behind our projects.

The kitchen centres on a fluted-panel island with a matching fluted TV feature wall, while a bespoke dressing room and freestanding-bath bathroom complete a full-home renovation built entirely in-house. The fluted panelling carries a single design language through every room in the home.

Design Time: 4-6 weeks . Fit-out Timeline: 6-8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team - with execution checked at every stage.

Catch 22

Casual Dining Restaurant · Mirdiff City Centre · Client: Kitopi

Catch 22 is a Dubai dining concept built around energy, fun and seriously good food — Burgers, Sushi and Shakes under one roof. Davies Group UAE created an environment as much an experience as the menu.

The ceiling is the defining achievement — a fully custom black steel mesh grid with dozens of neon art pieces. A large-format neon feature wall and bespoke terracotta service counter complete the space.

The result is a dining room built for social media as much as for dining, with a different visual moment around every corner.

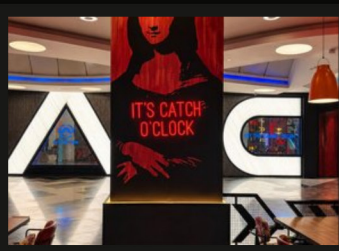

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

Ladurée, The Dubai Mall

French Patisserie & Café · The Dubai Mall · Client: French Spirit

Ladurée is one of Davies Group UAE's most repeated F&B partners. The Dubai Mall boutique brings the brand's signature Parisian mint-and-gold identity to one of the city's busiest retail destinations.

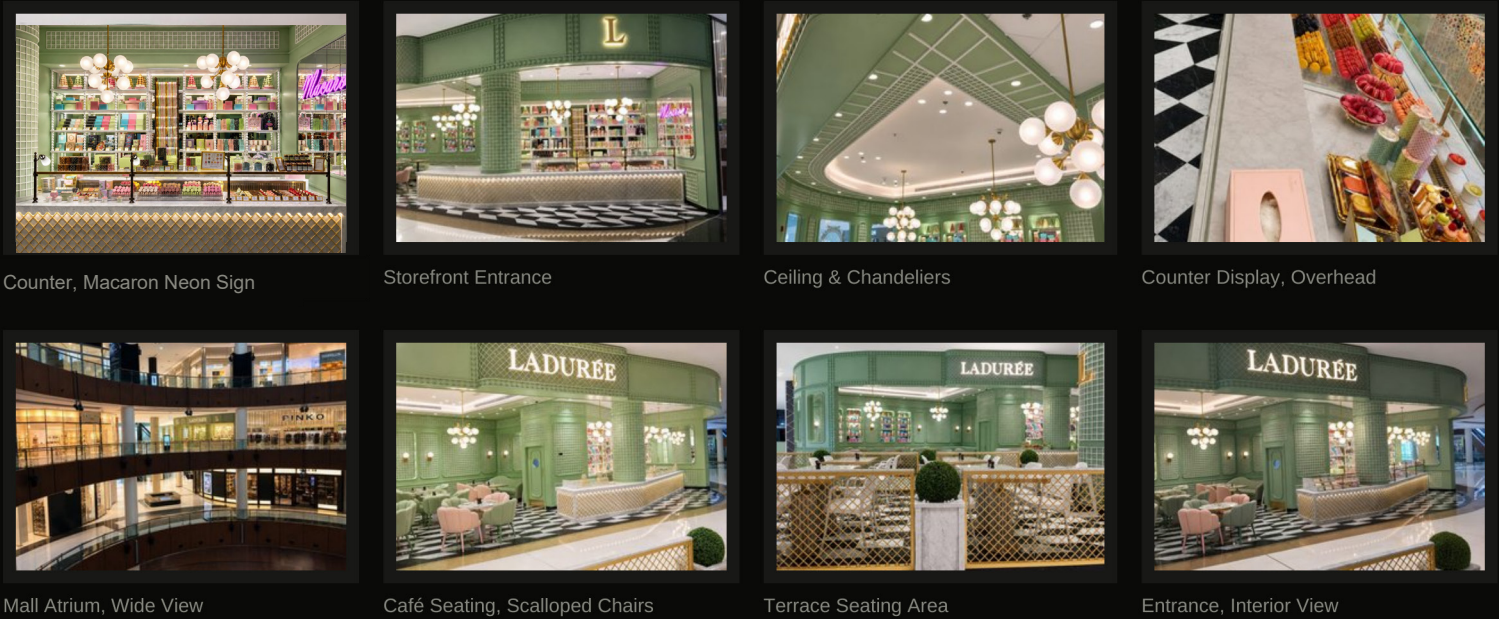

A curved mint-green façade with backlit gold lettering wraps the storefront, fronted by a gold-lattice terrace. Inside, a full-height gifting and macaron display wall completes the boutique experience.

The mint-and-gold palette and gold-lattice terrace echo the brand's Fashion Avenue boutique while giving this location its own identity within The Dubai Mall.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

Presented By

Premium Streetwear & Sneakers · The Dubai Mall · Client: Presented By — RIN Foundation

One of the most visually striking retail environments in Dubai Mall — full-height LED screens, sculptural 3D-printed lattice sneaker walls and curved all-black architecture. Designed and delivered start to finish by Davies Group UAE.

The store is defined by a bespoke 3D lattice wall system — individually formed geometric shapes wrapping the sneaker walls and ceiling — against a full-height curved LED column and dual LED window displays visible from the mall concourse.

The 3D lattice wall system alone represents one of the most technically demanding joinery builds Davies Gr has delivered to date.

Design Time: 4–6 weeks · Fit-out Timeline: 6–8 weeks.

Our design team specified the joinery for this project in detail, manufactured entirely in our in-house workshop and installed on site by our own store team — with execution checked against the original drawings at every stage.

Aureus Music Academy

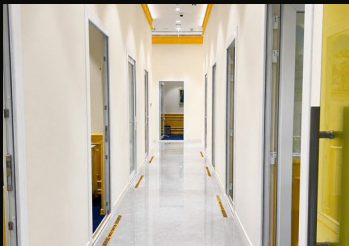

Music Academy · Springs Souk, Dubai · Client: Aureus Music Academy

Aureus Music Academy’s Springs Souk branch is one of several locations Davies Group UAE has delivered for the academy across the UAE — built around a striking green-glazed storefront that announces the brand from the mall corridor before guests reach the door.

Inside, the layout is built around acoustics and flow: a branded reception, a display gallery wall with backlit shadow-box niches, and a corridor of individual practice rooms finished with gold crown moulding and cove lighting.

Every fixture, finish and feature wall was designed and built in-house by Davies Group UAE, matching the acoustic and joinery standard set across all academy UAE locations.
